to Clean

Durable
Frame

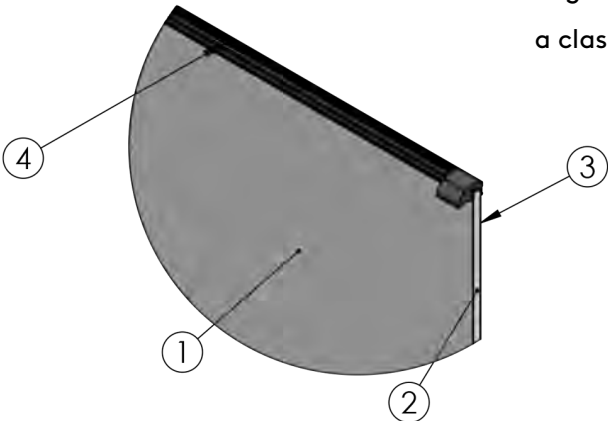

Large Writing
Area

Wings system integrates digital and traditional writing tools, offering a versatile solution for education and presentations. Its wide surfaces allow for more content sharing, while the side-opening wings provide additional space for extra information as needed.

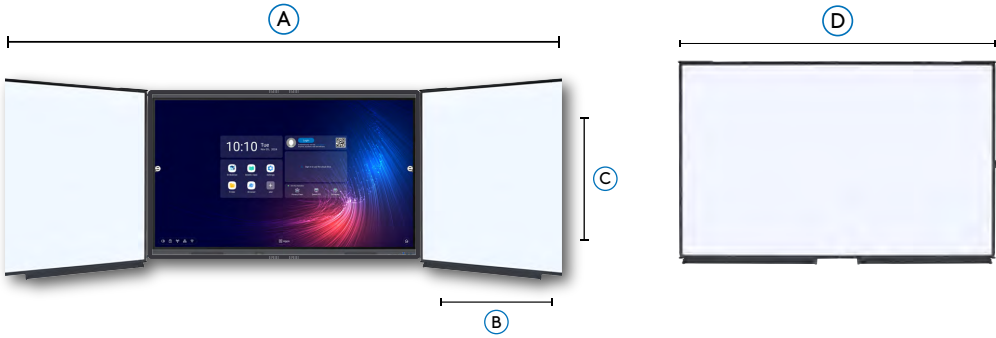

Designed to save space and be efficient even in small areas, the Wings system features a durable enamel surface that is long-lasting and easy to clean.

The wings can be opened for use alongside EmkoBoard or closed to function as a classic writing board, offering flexibility and practicality in any setting..

Item No	Product	Definition
1	Enamel	Ceramic Steel
